Write On/Wipe Off Math Games

By Miss DeCarbo

Dear Teachers,

Included in this download are six math games that can be played independently by students, with a partner, or in a small group! Simply print the game boards and laminate for durability. Place each game board in a sheet protector to create an instant write on/wipe off game or center that can be reused over and over again!

Students will use the number cards to play each game. Print off two sets of number cards so students can create two digit numbers (or three digit numbers) with their cards. Both color and black and white versions of the cards have been included for your convenience. (The games could also be played using dice or general playing cards as well.) Place the number cards in a baggie or laminate for durability.

Students will need two sets of cards, a dry erase marker, eraser, and a game board. Students will follow the directions to play, erase the board, and repeat! My students are taught to “play the whole time” while I teach small group math. 😊

These games are great for first graders, struggling second graders, or advanced kindergarteners. I suggest playing the games within a small group before setting the games out for independent use. This will promote independence and allow you the opportunity to model how to play the games. I hope you enjoy these independent math games!

Happy Learning.
Christina

Getting Organized

Laminate the game boards for durability. Place them in a sheet protector to make them write on/wipe off!
☺ Add a dry erase marker and an eraser and you are ready to go! ☺ (Baby socks or squares of felt work great for erasers.)

Tip & Trick: Store your games to make them easily accessible to your students. I keep little buckets that are filled with dry erase markers, erasers, and number cards (playing cards work, too.). Students simply grab the game and grab a bucket. They now have all the materials they need to play independently.

Flip It and Find It!

Directions: Make a one or two digit number with your cards. Find the number on the hundred chart and circle it.

1	2	3	4	5	6
11	12	13	14	15	16
21	22	23	24	25	26
31	32	33	34	35	36
41	42	43	44	45	46
51	52	53	54	55	56
61	62	63	64	65	66
71	72	73	74	75	76
81	82	83	84	85	86
91	92	93	94	95	96

Picture It and Add It!

Directions: Make two numbers with your cards. Draw circles for each number. Then, count the circles and write the sum. Erase and repeat!

Draw your circles here:

Write the sum here. →

Write It, Tally It, Draw It!

Directions: Make a number with your cards. Write the number, show it in tally marks, and draw a picture to match your number. Erase and repeat!

Write It!

Tally It!

Part Part Whole!

Directions: Make two numbers with your cards. Write a number in each of the "1" circles. Add the numbers together. Write the sum in the dotted circle. Erase and repeat!

Write About It!

Directions: Make a number with your cards. Write a sentence at number. (Example: I see 4 dogs.) Draw a picture to match your number. Erase and repeat!

Write About It!

Directions: Make a number with your cards. Write a story problem at number. Draw a picture to match your sentence. Erase and repeat!

My Picture:

I Can Count On!

Directions: Make a number with your cards. Write your number in the box. Count on by writing the numbers that come after it. Erase and repeat!

I Can Count On!

Directions: Make a number with your cards. Write your number in the box. Count on by writing the numbers that come after it. Erase and repeat!
