a warm-up or exit for small groups

ABOUT THIS RESOURCE

Thank you for choosing the Daily Dendrite Challenge! This is a fully digital and paperless resource for primary critical thinkers. Our students are not born with the ability to think critically. As educators, we must foster this type of thinking with the experiences, activities, discussions, and instruction we provide to our students. This resource was designed as a fun and engaging way for students to practice thinking creatively and critically. Furthermore, problem-solving, persistence, and an ability to see situations from different viewpoints are essential skills students need to develop.

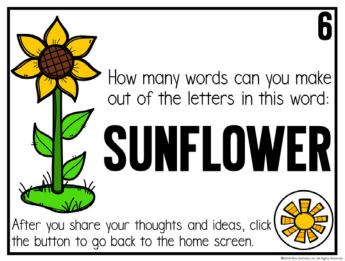

The brain teasers provided in each month's Daily Dendrite Challenge vary from day to day. These teasers were created to help your students practice thinking critically, logically, creatively, and "out-of-the-box!" At times, you, as the educator, may need to provide assistance or facilitation in completing the brain teaser. You may also wish to provide a "think-aloud" to help students comprehend or work their way through the brain teaser. How much assistance you provide your students should be at your own discretion. The degree of assistance provided by the teacher may depend upon the grade level, classroom, students, goals, uses, time of the year, and individual needs.

Each month is designed around a theme, season, or holiday. In the future, additional Dendrite Challenges that are more general and not seasonal may be created by the author. However, at this time, the monthly resources are not editable or available for customization unless in the event of a technical error by the author. Thank you for your understanding. We hope you enjoy this critical thinking resource!

WHAT YOU NEED

To use the slideshow file, you will need a device that has Microsoft PowerPoint installed. The PDF file can also be used, as it contains clickable links. Sometimes, the text formatting can appear to be "off" when the slideshow file is used on a Mac. If this should happen, simply use the PDF file on your Mac device. The PDF file will work in the same way the slideshow does. As with all digital resources, you will want to ensure your computer and your Adobe is up-to-date.

Due to the digital nature of this resource, there is no worksheet or printable provided with this resource. If you wish to have your students show their work or thinking, I recommend having the students use individual whiteboards with a dry-erase marker. You could also have the students record their thinking into journals, notebooks, or on blank paper. An example of a brain teaser that you will want students to have workspace for is shown below. You can see that there could be multiple, open-ended answers for this brain teaser.

DO YOU WANT TO TRY IT OUT FIRST?

On the next page, try out THREE daily dendrite challenges for FREE using this clickable PDF preview file. Simply click on the pictures the arrows are pointing to. Are you ready to use your brain and grow some dendrites?! Head to the next page and let's get started!

As you learn, dendrites grow so that neurons in your brain can make connections. When you challenge your brain by thinking hard to solve a problem, you are growing dendrites!
